Environments for Treatment

Customizable, safe, sanitary, and secure

Careaffirm Offers

High quality and feature-rich prefabricated solutions

Healthcare Spaces Built for Speed, Safety, and Care Delivery

Modular clinical environments designed for:

- Behavioral Health
- Free-Standing Emergency Departments
- Ambulatory Surgery Centers

Delivered faster. Designed for care. Built with confidence.

Built for Healthcare. Designed for Care Delivery.

CareAffirm helps healthcare organizations expand access to care through modular clinical environments that reduce project timelines while supporting safe, efficient, and compliant care delivery.

CareAffirm

Where CareAffirm Fits

Behavioral Health Rooms - Rapidly deploy standardized spaces designed to support patient safety, staff efficiency, and a calm, therapeutic environment for care and recovery.

Free-Standing Emergency Departments (FSEDs) - Extend emergency services into growing communities with clinically ready environments that support trauma capability, imaging adjacency, and life-safety priorities without traditional construction delays.

Ambulatory Surgery Centers (ASCs) - Support outpatient surgical growth with modular environments designed for clinical precision, infection prevention workflows, and operational efficiency.

Why Healthcare Leaders Choose CareAffirm

- Faster project schedules compared to traditional construction
- Purpose-built for clinical use, not adapted from commercial modular
- Designed to support patient safety, staff workflow, and operational continuity
- Scalable, repeatable solutions for multi-site deployment
- Aligned with healthcare regulatory and life-safety expectations
