MISSION-CRITICAL MODULAR FACILITIES

Built with the future in mind

We design and manufacture secure, high-performance modular buildings for data, power, telecom and rail. Built-off site and stored in a controlled environment so that you're always ready for what's next.

25+	30,000+	25+	200+	300K
Years in room based modular	Experience building over 30k units	Engineers on staff	Certified welders	Square feet of manufacturing space

What We Build

Portable and permanent, room based modular

Data Huts
Quality controlled builds that are designed to get you up and running

Telecom Solutions
Reliable modular buildings that keep networks running

Data Centers
Purpose-built for the protection of fiber network equipment

Equipment Shelters
Rugged shelters for critical gear storage in any environment

E-Houses
Modular enclosures for switchgear and electrical distribution equipment

Power Solutions
Motor control centers and mobile battery storage

Why Partner with us?

Cut deployment time without cutting corners

Faster Deployment
Off-site manufacturing and storage allows reduced on site load and can reduce timelines.

Quality You Can Trust
Our quality control processes mean that each building is closely monitored as it goes through our manufacturing process.

Flexible & Reconfigurable
We're ready to create a structure that fits your specific needs. Custom sizes available upon request to better meet your requirements.

Light Weight, & Built Tough
Easy to transport and install - tough steel construction.

Lets talk about your next mission-critical project Connexure.com

FEATURED PRODUCT

Equipment Enclosure

A blank slate for your next project. Outfit this modular unit to fit whatever you need to protect, from tools and spare parts to computers, network switches and control equipment.

STANDARD SIZES

- 6 × 12
- 10 × 12
- 13 × 32
- + Custom sizes

10x12 Interior Layout E.G.

Key Features

Modular

Request a removable wall and connect additional units, for more space now, or in the future. Our units can be designed to connect, expand, and shape your next project.

Custom solutions

Need more ceiling height? Ballistic rated shelter? Heat/cooling? Connexure specializes in creating structures that match your particular site needs.

High Quality is our Standard

Built from 16-gauge galvanized steel and sealed with a seamless polyurea coating for lasting protection against water, chemicals and corrosion.

One Family of Companies. Endless Manufacturing Capabilities.

As part of VITALSpace, Connexure draws on a larger family of modular steel constructions brands for added resources, capacity, and problem solving power.

SteelCell - Justice

CareAffirm - Healthcare

PSG - Industrial

BIG Enterprises - Security
