

Built for justice. Backed by experience.

SteelCell is the leading provider of prefabricated detention units for correctional and justice facilities nationwide. Our modular approach delivers fast, reliable, and cost-effective solutions—without sacrificing quality, security, or compliance.

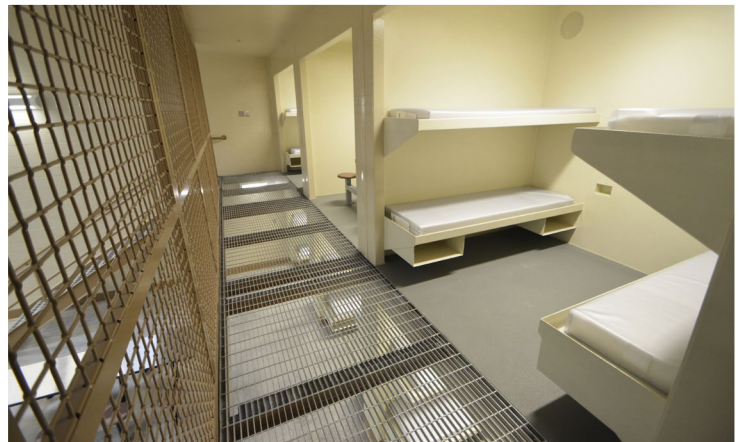

Why SteelCell?

- American-made with domestic material
- Proudly employing nearly 300 people in a quality work environment
- Experienced team with over 26,000 units in service across the U.S. and Caribbean
- Ability to meet fast-track construction deadlines with industry leading capacity
- Lighter weight design for reduced structural loads
- Proven lifecycle savings through lower maintenance and repair cost
- Customizable to meet your facility's operational and program needs

The Numbers Behind the Name

- 25+ years of modular justice experience
- 315+ projects completed
- 115,000 sq ft manufacturing space
- 2,000 indoor unit storage capacity
- 26,000+ units in use
- ~25 units/day output, single shift

Adaptable by Design

SteelCell's modular units are ideal for a wide range of security levels and facility types:

- Minimum to maximum security
- Juvenile, psychiatric, and medical facilities
- Stackable, mezzanine-ready modules
- Independent-of-structure install for ultimate flexibility
- Lightweight and ideal for high rise construction

Durability you can trust. Delivery you can count on.

SteelCell is ready to support your next correctional project -- from design to installation.

A60 Galvannealed Steel Construction

- Paintable Zinc-Alloy steel provides the ultimate corrosion resistance for harsh environments
- STC rated sound insulation
- Lightweight for easier shipping and installation

Seamless Polyurea Coating

- 5-10x thicker than typical finishes
- Resistant to the growth of mold and bacteria. Waterproof and chemical-resistant.
- No pick-points or seams--stops contraband concealment
- Durable coating that performs better than epoxy or baked-on coatings

Factory-Installed Fixtures

- Sink/toilet combos, LED lights, integral HVAC grilles
- Optional in module or stand alone showers
- Welded steel bunks, desks, seats, and shelving
- Ligature-resistant hooks and furnishings available
- Optional polymer furniture

CAMPUS MAP

Additional Modular Options

- Restroom modules
